Atelier sur les processus multifractionnaires
Multifractionality Workshop

21 octobre 2010
Institut Elie Cartan de Nancy
Salle M4

14h – 14h45 Y. Mishura *Some new results concerning stochastic differential equations with fractional Brownian motion*

14h50 – 15h35 G. Shevchenko *Path properties of multifractional Rosenblatt process*

15h40 – 16h25 L. Sakhno *Asymptotic normality of spectral estimates*

16h30 – 17h15 K. Ralchenko *Absolute continuous approximations for multifractional processes and fields*
